Homework 5

Yuki Joyama

```r
# libraries
library(tidyverse)
library(ggplot2)
library(dagitty)
library(tableone)
library(knitr)
library(personalized)

# setup plot theme
theme_set(
  theme_minimal() +
    theme(legend.position = "top")
  )
```

```r
# import data
df = read.delim("./data/gardasil.txt") |>
  select(-c(X, X.1))
```
